

# WHY CHURCH?

## Fall, 2019 Sermon Series

### August 18 – October 13

We are living in an era of history where the percentage of Americans attending church is at an all-time low. Further, many professed Christ-followers and present church attendees are asking the question that titles this series. And, we all know of many who “used to” be involved in the church, but are now checked out, having already answered this question negatively for themselves. This series returns us to the Book of Acts, and the birth and early days of The Church in the New Testament. These people had reasons to be part of this burgeoning movement. What were they? We will answer the question every week from God’s Word. Don’t miss this series. It just may help you answer a pressing question you’ve been asking.
